Staging / Live Event Production

**STADIUM SOUND, LIGHTING
BACKLINE & STAGING**

Production Services International Inc. has been a fixture in live event production in Denver for over 30 years! Stemming from the deep roots of Audio Denver, we found ourselves out growing our own name & in an effort to accurately represent ourselves; we rebranded to Production Services International.

Over the years, we've discovered that we prefer to serve our client's needs directly and began to expand our in-house scope to our current offerings including audio, video, lighting, staging, backline, case manufacturing, meeting planning, and destination management. In order to keep up with the growing demand we opened our Boise office in 2001 and our Salt Lake City office in 2014. Whereas a typical

"A/V" company tends to specialize in corporate audio-visual markets, and a typical "big box" sound company tends to focus on major concerts or tours, at PSI you truly get the best of both worlds. We have a wealth of expertise in both realms without compromise. We can provide turn-key support for any event of any size! Our goal is to make your event a success & to make you look good!

Your message is important to us and we will take great care in helping you deliver it your audience.

SCALABILITY

We understand that not every audience is 100,000 people; however, we do understand that your event is important to you no matter what size it is. We also understand that sometimes you just don't need a turn-key service. Maybe all you need is help with lighting, or just to rent a few supplemental pieces of audio. We're here to help you regardless of how large or small our role may be. And in the event of a last minute need, we have the resources at our fingertips!

OUR PRIORITY

Yes, it's convenient and cost effective to make one stop to get everything from a single company, but ultimately you can find comparable gear from numerous other vendors. So why use PSI? That's actually an easy answer. It may sound cliché, but good customer service truly makes the difference. Clients like to feel confident that they can rely on their partner for guidance and to help them make the best decisions to deliver the goods. Personalized service, trust, confidence, experience, added value and foresight all contribute to our longevity and are all benefits that we can offer you!

PARTNERSHIP

Not only do we hold ourselves to a higher standard that our clients have come to expect, but we carefully select strategic partners that compliment our standard of quality and professionalism as well. **Spot On Sound** understands the value of a trusted partnership that has the same goals. PSI is proud to partner with **Spot On Sound** to provide you with an incomparable production experience.
